RE: New Source Performance Standards Subpart OOO

The Ash Grove Cement Company facility in Portland, Oregon has NSPS Subpart OOO, Standards of Performance for Nonmetallic Mineral Processing Plants, standards which apply and are not recognized by Oregon DEQ. As a result we are complying with this standard by reporting the required information to EPA Region 10.

Ash Grove Cement Company previously submitted a notice of startup. At this time we would like to provide you with at least a 7-day advance notice prior to conducting a Method 9 performance test.

Subsequently, Ash Grove Cement will submit written reports of the results of the performance test within 60 days after achieving maximum production rate but not later than 180 days after initial startup.

If you have any questions please call 503-247-5423, or e-mail glenn.dollar@ashgrove.com.

RE: New Source Performance Standards Subpart OOO

The Ash Grove Cement Company facility in Portland, Oregon has NSPS Subpart OOO, Standards of Performance for Nonmetallic Mineral Processing Plants, standards which apply and are not recognized by Oregon DEQ. As a result we are complying with this standard by reporting the required information to EPA Region 10.

Ash Grove Cement Company installed one Radial Telescraper Conveyor – 2015 Superior Industries 36" X 150' Telescraper S/N 817898, EQ-2581, and one Conveyor Extension – 2015 Superior 36" X 60' Stackable Conveyor S/N 871898. Date of initial startup was August 23, 2017.

Moving ahead, Ash Grove Cement will provide EPA Region 10 with at least 7-day advance notice prior to conducting a Method 9 performance test. Subsequently, Ash Grove Cement will submit written reports of the results of the performance test within 60 days after achieving maximum production rate but not later than 180 days after initial startup.
